

GoldWave

Your Gold & Silver Jewellery Plan

A simple guide for new members — plans, payments and rewards

Edition 02-10-2026

What is GoldWave?

A jewellery membership program: you pay in easy steps, you own real jewellery, and your team earns you rewards.

Real jewellery

Every plan ends in genuine gold or silver jewellery that you collect from a GoldWave store.

Easy instalments

Pay monthly in small EMIs, or pay once with a Direct plan. Cash or GPay / UPI.

Team rewards

Introduce friends and family. As your team grows, you can earn Level, Pair, Draw and Booster rewards.

Every plan benefit is a jewellery item — not coins, bars or cash.

Choose your plan

Four monthly EMI plans with a fixed jewellery weight, and two one-time Direct plans.

Silver StartSILVER ₹1,000 per month × 20 Total ₹20,000 100 gm Silver Jewellery	Silver PrimeSILVER ₹3,000 per month × 10 Total ₹30,000 100 gm Silver Jewellery	Gold RiseGOLD ₹5,000 per month × 10 Total ₹50,000 5 gm Gold Jewellery
Gold EliteGOLD ₹10,000 per month × 10 Total ₹1,00,000 10 gm Gold Jewellery	Silver DirectSILVER ₹20,000 one-time Paid at once Silver jewellery of your choice at the current rate	Gold DirectGOLD ₹50,000 one-time Paid at once Gold jewellery of your choice at the current rate

Future Rate or Current Rate?

Every EMI plan starts on Future Rate. You may switch to Current Rate once, later.

Future Rate (default)

- Your EMI is the plan's plain amount (e.g. ₹1,000 × 20).
- No weight is locked while you pay.
- At the end, you get jewellery worth the amount you paid, at the rate on the delivery date.
- No maintenance charge.

Current Rate (optional)

- Locks today's rate and the plan's fixed weight (e.g. 100 gm silver).
- New EMIs = (value still to pay ÷ EMIs left) + 1% maintenance, which falls every month.
- Request it from your Membership Plan page — the company approves it.
- You cannot undo it yourself; contact the company before your next EMI.

EXAMPLE

Silver Start, nothing paid yet, silver at ₹350 / gm (no making charge in this example): $100 \text{ gm} \times ₹350 = ₹35,000$. First EMI = $₹35,000 \div 20 + 1\%$ of ₹35,000 = ₹1,750 + ₹350 = ₹2,100. Each later EMI is a little smaller, because the maintenance is 1% of what is still left.

How to join

Six steps from sponsor code to your first login.

1

Get a sponsor code

From the member who introduced you.

2

Pick Left or Right

Where you sit in your sponsor's tree.

3

Fill your details

Name, mobile, email, gender.

4

Choose a plan

Silver or Gold, EMI or one-time.

5

Pay

Cash, or GPay / UPI with Ref ID + screenshot.

6

Get approved

You get your Customer ID and can log in.

Your login

Customer ID + password. Your first password is your Customer ID — change it after your first login.

Sponsor vs. placement

Your sponsor is who introduced you (used for Level Income). Left/Right is your place in the tree (used for Pair Rewards and Booster).

Paying your EMIs

Simple rules that keep your plan — and your rewards — running.

Same date every month

Your first EMI is due on your activation date; each next EMI falls on the same date of the following month.

One at a time — or all at once

Pay the next due EMI, or use “Pay All Remaining EMIs” to finish the plan in one payment.

Cash or GPay / UPI

For GPay / UPI, enter the transaction Ref ID and upload the screenshot. The company approves every payment.

Don't go overdue

An EMI is overdue the day after its due date. While any EMI is overdue, all your new earnings are held — released once you pay.

After your last EMI, collect your jewellery from a GoldWave store.

Five ways to earn

Your jewellery comes first. These rewards are extra, and they grow with real team activity.

Level Income

A % of every plan payment in your sponsor chain, 12 levels deep.

Pair Rewards

Milestone rewards as your Left and Right teams grow.

Monthly Draw

A jewellery prize draw in your group, every month.

Income Booster

A fixed monthly benefit for building a big team.

Store Income

A % when you or your team buy jewellery at our stores.

What is a “qualified direct”?

A member you introduced yourself, who is active and has paid enough: Direct plans — registration paid; Silver Start — 6 EMIs; Silver Prime — 2 EMIs; Gold Rise — 2 EMIs; Gold Elite — 1 EMI. Most rewards need a certain number of qualified directs.

Level Income

Earn a share of every plan payment — joining or EMI — made by members up to 12 levels below you in your sponsor chain.

How it works

Level 1 is the member you sponsored, Level 2 is the member they sponsored, and so on up to Level 12.

Directs unlock levels

Each level needs a number of qualified directs: 2 for Level 1, 4 for Level 2 ... 24 for Level 12.

Held, never lost

If you don't have enough directs yet, the income is kept for you and paid as soon as you qualify — no time limit.

Example: your direct pays a ₹3,000 Silver Prime EMI → you earn 5% = ₹150 (Level 1, Silver), if you have 2 qualified directs.

Level	Silver plans	Gold plans	Directs needed
Level 1	5%	2%	2
Level 2	2%	1%	4
Level 3	1%	1%	6
Level 4	1%	1%	8
Level 5	1%	1%	10
Level 6	1%	1%	12
Level 7	1%	1%	14
Level 8	1%	1%	16
Level 9	0.5%	0.5%	18
Level 10	0.5%	0.5%	20
Level 11	0.5%	0.5%	22
Level 12	0.5%	0.5%	24

Pair Rewards

Milestone rewards as your Left and Right teams grow. Reward = entries used × ₹50.

Entries

Every qualified joining anywhere in your Left or Right team adds one entry on that side.

Milestones

When both sides reach the next milestone and you have enough qualified directs, the reward is paid.

Month-end

Calculated at the end of every month. Unused entries carry forward; used entries are never reused.

Milestone 1: 5 Left + 5 Right = 10 entries × ₹50 = ₹500, with 2 qualified directs.

#	Milestone	Directs	Left + Right	Reward
1	Starter	2	5 + 5	₹500
2	Builder	4	50 + 50	₹5,000
3	Achiever	6	250 + 250	₹25,000
4	Performer	8	500 + 500	₹50,000
5	Leader	10	1,000 + 1,000	₹1,00,000
6	Champion	12	2,000 + 2,000	₹2,00,000
7	Master	14	5,000 + 5,000	₹5,00,000
8	Premium	16	10,000 + 10,000	₹10,00,000
9	Platinum	18	20,000 + 20,000	₹20,00,000
10	Diamond	20	40,000 + 40,000	₹40,00,000
11	Crown	22	80,000 + 80,000	₹80,00,000
12	Royal	24	1,60,000 + 1,60,000	₹1,60,00,000
13	Imperial	26	3,20,000 + 3,20,000	₹3,20,00,000
14	Supreme	28	6,40,000 + 6,40,000	₹6,40,00,000
15	Maharaja	30	12,80,000 + 12,80,000	₹12,80,00,000

Monthly Draw

Every eligible member joins a draw group and gets a chance to win jewellery every month.

Each group's 20-month draw cycle

Months 1–15 · Silver prize (default Silver Jewellery, ₹20,000)

Months 16–20 · Gold, ₹25,000

Groups of 200

Groups are formed on the 15th, in Customer ID order. Each group draws for 20 months.

15th, 12:00 PM

The draw runs on the 15th of every month. A winner leaves the group's pool, so nobody wins twice.

Who is eligible

Silver Start: 6 EMIs paid ·
Silver Prime: 2 · Gold Rise: 2 ·
Gold Elite: 1 · Direct plans:
paid in full.

Sponsor bonus

If the winner's sponsor has 10 or more directs, the sponsor gets the same prize too.

Income Booster

Build a big, balanced team and earn a fixed monthly benefit. Qualify once — get paid every month for the full duration.

Level 1		Level 2		Level 3	
₹5,000		₹20,000		₹60,000	
per month for 12 months		per month for 6 months		per month for 6 months	
Qualified directs	10	Qualified directs	20	Qualified directs	30
Team (Left + Right)	250 + 250	Team (Left + Right)	750 + 750	Team (Left + Right)	1,500 + 1,500
Total benefit	₹60,000	Total benefit	₹1,20,000	Total benefit	₹3,60,000

Team counts everyone placed under you on each side — they don't need to be your directs. You can run more than one level at the same time.

Store Purchase Income

When you or your team buy jewellery at a GoldWave store, you earn a % of the metal value.

Your own purchase

5% Silver **2%** Gold

Team income unlocks at 10

Your team's purchases pay you once you have 10 qualified directs. Once unlocked, it stays unlocked for life.

Your team's purchases (sponsor chain)

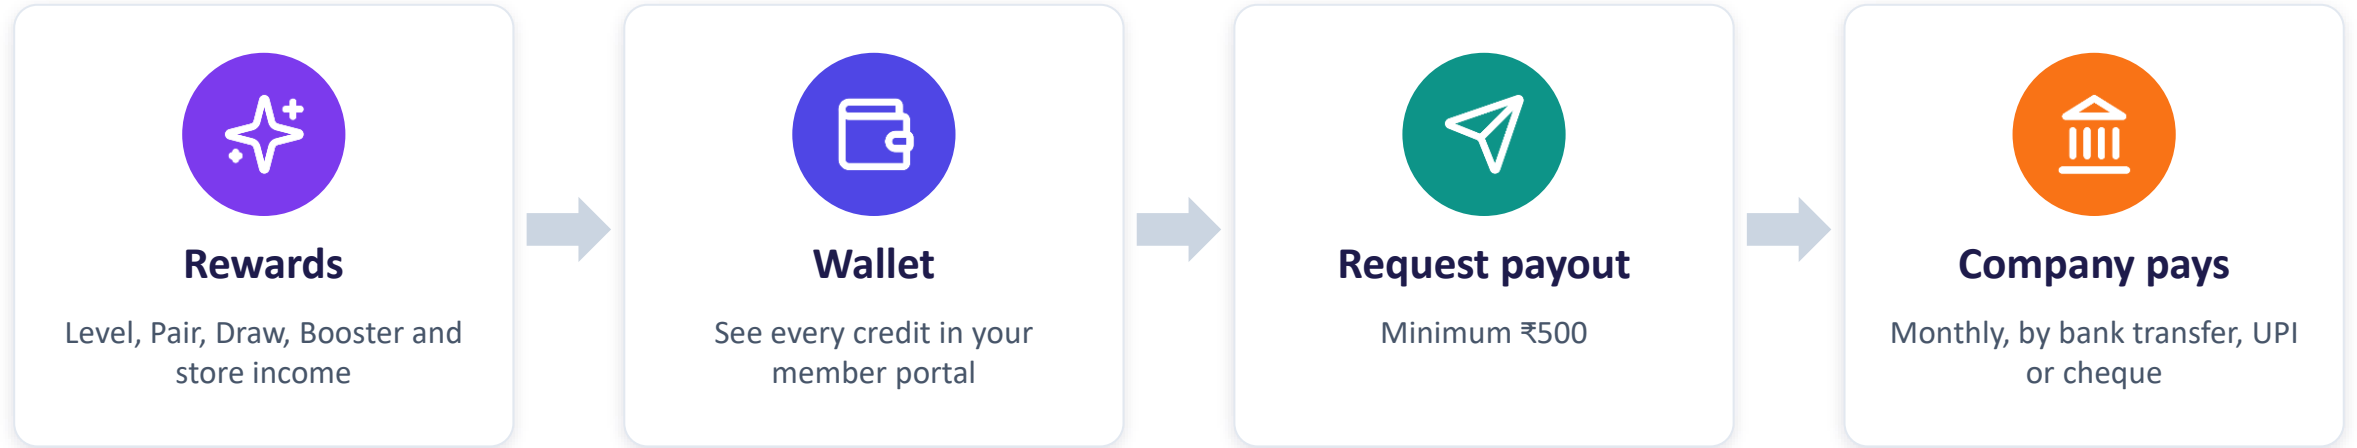

Level	Silver	Gold
Level 1	2%	1%
Level 2	1%	1%
Levels 3–6	1% each	0.5% each
Levels 7–12	0.5% each	0.25% each

Store income is calculated on the metal value of the sale (not on making charges or GST).

Example: your direct buys silver jewellery with a metal value of ₹10,000 → they earn 5% = ₹500, and you earn 2% = ₹200 (Level 1, once unlocked).

Wallet & payouts

All your rewards land in your GoldWave wallet. You request a payout; the company pays it.

Bank details verified

Add your bank / UPI details in your profile. The company verifies them before paying.

TDS and fees

TDS and processing fee are currently 0%, as set by the company. These may change.

Held amounts

Income held for missing directs or an overdue EMI can't be withdrawn until it is released.

Important to remember

Read these before you join.

Your plan benefit is jewellery — not coins, bars or cash.

Rewards depend on real team activity. No income is guaranteed.

Pay EMIs on time — an overdue EMI holds all your new earnings.

Keep your payment Ref ID and screenshot until the payment is approved.

Sponsor (who introduced you) and Left/Right placement are separate.

As of 02-10-2026, these figures are current. The company may update them.
